

A 3D architectural rendering of a village landscape. The scene features a central pond with a small island in the middle. The pond is surrounded by green grass and a network of grey paths. Numerous white, block-like buildings of varying sizes are scattered throughout the landscape, some clustered together and others isolated. A blue river or canal flows through the scene, passing by the pond. The overall style is minimalist and modern, focusing on the spatial arrangement of buildings and water.

Gezichtspunt vanaf Prins Beatrixstraat – Nieuwe situatie

A 3D visualization of a village landscape. The scene features a winding river in the center, surrounded by green grassy areas and various white, block-like buildings of different sizes and shapes. The buildings are arranged in a way that suggests a dense urban or village environment. The river flows from the top left towards the bottom center, with a small island in the middle. The overall style is minimalist and modern, using a limited color palette of white, green, and blue.
